SUMMARY

Motivated and detail-oriented CIS Web Development Student with strong academic exposure to front-end fundamentals. Eager to learn and build skills in building user-friendly digital experiences and supporting technical troubleshooting. Experienced in customer service and teamwork through part-time roles while pursuing a degree. Seeking an entry-level opportunity in web development or IT.

EDUCATION

Passaic County Community College (PCCC) – Paterson, NJ
A.A.S. Computer Information Science – WEB TECHNOLOGY
Graduation: Spring 2027

Relevant Coursework:
Python, C++, Database Fundamentals, Website Design & Tools(HTML/CSS), Systems Analysis & Design, Linux

TECHNICAL SKILLS

- **Web:** HTML, CSS (basic)
- **Programming:** Python, C++
- **Databases:** SQL basics, MySQL/Oracle (student level)
- **Tools:** Git/GitHub, VS Code, WIX, MS Office 365

PROJECTS

Motivational Website – WIX (Class Project)

Developed a responsive website promoting positivity and motivation. Designed layouts, content, navigation, and implemented accessibility. Link to Rise Again

Portfolio Website

Created a personal portfolio featuring projects, resume, and contact form. Ensured responsive styling, consistent layout, and clean code. Hosted on GitHub Pages.

SQL Database Design Project: Student Course Enrollment Tracking System

Developed a relational database using Oracle SQL to manage student records, course enrollment, and grades. Applied core database concepts including constraints, sequences, triggers, joins, subqueries, and CASE logic to maintain data accuracy and support efficient reporting. Also created clear SQL Developer reports and charts to present information effectively.
